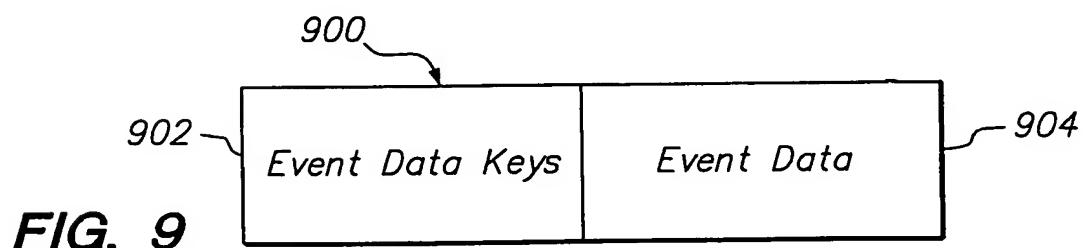

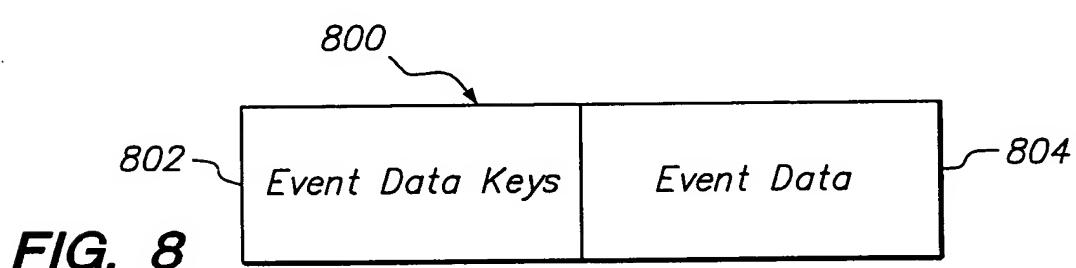

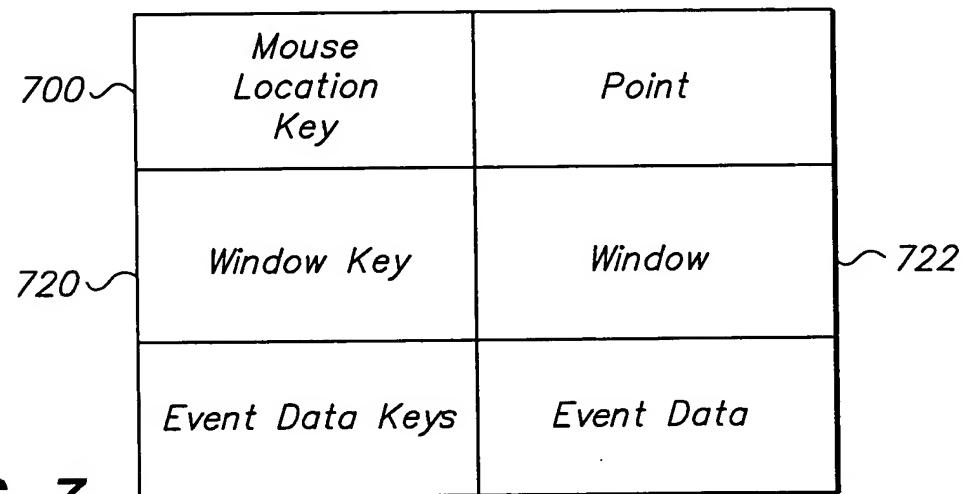

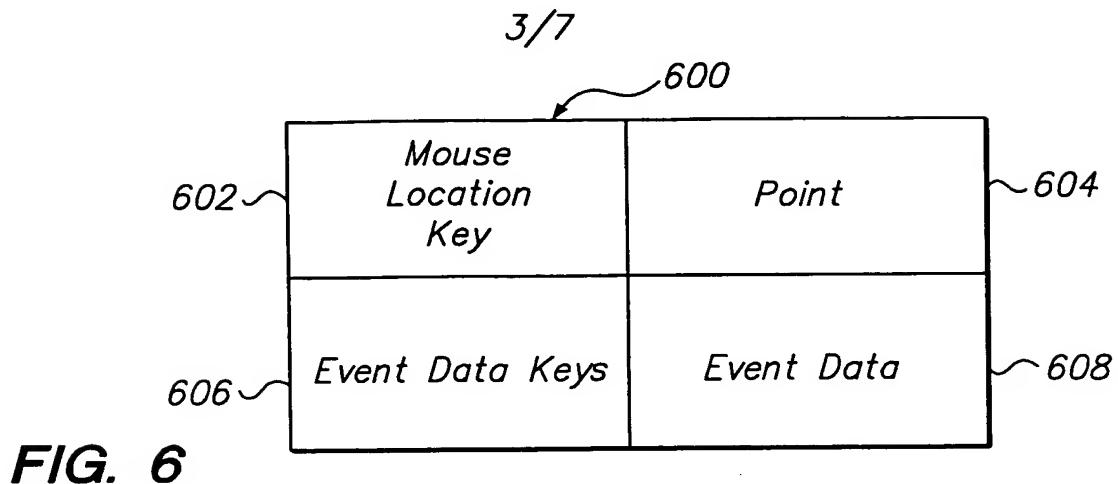

FIG. 3

A diagram illustrating a data structure. It consists of a vertical line representing a boundary. On the left side of this line, the numbers 402, 404, and 406 are written, each with a wavy line pointing to a specific point on the vertical line. On the right side of the line, the number 400 is written at the top, with a wavy line pointing to the top of the vertical line. Below 400, there is a rectangular box containing the word "Type". Further down the right side of the line, the text "Other Data" is written.
